There were several gentlemen on the floor he would liked to have voted for and placed in the position to which he had been called. Hs regarded the convention as being one of more than ordinary importance. The question before it demanded deliberation and consideration. Consideration should also be given to the matter of resolutions, and the men who represented the whole party here at the present time, should look at the situation squarely, and say something that should not be misunderstood. Mr. McKenzie thought it would be well to leave the number in the hands of the chair. He might find that two or three would be necessary. In the case his esteemed friend, Mr. Sloan, were nominated doubtless one would be enough—his ability was so well known. "I say this," added the speaker, "in all sincerity."

The original motion was finally carried, and the chair named as such committee, Messrs. Spencer Clawson, C. C. Richards, R. W. Sloan, W. W. Cluff, W. H. King, Wm. Seegmiller, James H. Moyle, R. W. Young, F. A. Hammond.
